

Name: Harrison Romain School: Clark Elementary School Teacher: Mrs. Stevens Grade: 5th

Dear Mayor Bray,

I will help make Paducah beautiful by picking up trash on the ground and recycling. Read on to hear more!

To start, I think that picking up trash and litter will help Paducah become beautiful. If new people come into Paducah for a night and they see all this trash on the ground they wont want to live in Paducah. That's why we need to pick up trash off the ground even if it is slimy, gross or already been ate.

Next, we need to recycle to make Paducah more beautiful. When you recycle your taking plastics, aluminum, and papers off the ground, or even taking cans that you drank out of and recycling it. Here at Clark Elementary School, we have a recycling team. Usually almost every Thursday we ask the teachers to leave their recycling bins outside their classroom so the recycling team can grab the bin and go.

Lastly, we need to be kind to new visitors. Maybe you didn't know it but being kind to someone can really change the mood of their day. Whether its saying "nice shoes" or complementing them. If we are not kind to knew visitors, then the visitors will not want to live here in Paducah.

As you see, these are simple ways to make Paducah beautiful even if you do not know you are your making Paducah more and more beautiful.

Sincerely, Harrison J Romain

Dear Mayor Bray

I will help make Paducah beautiful by picking up dog waste and picking up trash read on to find out more

First, I will pick up dog waste that I see on the sidewalk or on the grass at parks. This will make Paducah more beautiful.

Next, I will pick up trash that is see on the ground or in the river. This will make Paducah cleaner.

Sincerely, Harry Miller

My school is Clark Elementary

My teacher is Mrs. Stevens

My grade is 5th.

Dear Mayor Bray

My name is Hayden.

My school name is Clark Elementary

My teacher name is Stevens

I am in 5 grade.

I will help make Paducah beautiful by planting flowers and being kind picking up trash. Read on to hear more!

First, I am going to grow flowers and plants and trees so no spot will nothing will be blank outside.

Next, I will be kind so I can make people more enjoying in life and make them laugh and talk with your friend and mite make there day and they will smile and make them happy.

Last but not least, I will pick up trash in the river it is so dirty and make the river clean and for the fish so they can't get cut and so that's way you need to pick up trash in the river.

Sincerely, Hayden

September 20,2022

Dear Mayor Bray,

I have heard that you are planning on making Paducah a more beautiful place. I have some ideas that my friends and I can do to help. We can help pick up litter and plant more trees.

First of all,I will make a group to help me pick up litter. We can pick up litter to help make paducah look better because if there's litter Paducah is not as pretty as it could be. Next, I will do it every two weeks. Also, we will pick up trash at the school another week. Lastly, cops can pull over the people who litter if they see them and make them pay a \$1,000 fine instead of \$500.

Secondly, I will help plant more trees. First, we can plant apple trees or pacon trees or more. Second, I can do that so animals and people can eat. Also, I can get some friends from school to help. I can ask Ashtyn, Jade or Payton. Next we can plant them every year. Also we can plant them in the park or near the school, Walmart and more.

As you can see, paducah could be even more beautiful by cleaning up the litter and planting more trees.

Sincerely
Ireland Rodriguez

Jack Miller

Clark Elementary School

Mrs. Paxson

5th grade

Dear Mayor Bray,

I will help make Paducah beautiful by picking up trash and being kind to people.

First, I will help pick up trash by going around my Neiborhood and picking up trash there. This is important because if there is trash in the streets, parks, rivers, and restaurants the people who come to our city will think we are messy and that's not good. It is also important because there are animals who live in the city and can get very hurt and sick from eating the trash that is in our city and that's not good either. So that is why we need to pick up trash.

Next, I will be kind to people. I can be kind to people by saying have a good day and helping them if they need help with something. This is important because if we aren't nice to the people who come here, they might not want to come here again. It also important because it's good to be kind and nobody like people who aren't kind. So that's why we need to be kind.

In conclusion, this is why we need to pick up trash and be kind to help the city be more beautiful.

Sincerely,
Jack Miller

JACKSON HILL

MRS MOORE 5th

DEAR Mayor BOYD

I WILL HELP MAKE PADUCAH
BEAUTIFUL BY HELPING THE HOMELESS
KEEP ON TO HEAR MORE

FIRST I WILL HELP THE HOMELESS BY
GIVING THEM MONEY OR BUYING THEM
GLOVES, MEDICINE, CLOTHES, AND
JACKETS WHEN IT GETS COLD AND
WHEN I DO THIS HOPEFULLY IT WILL
INSPIRE PEOPLE TO HELP

NEXT I WILL START A CHAIRTY TO RAISE
MONEY TO BUILD NEW HOMELESS SHELTERS
SO MORE PEOPLE WILL HAVE A HOME AND WHEN
BUILDING THESE NEW HOMELESS SHELTERS
I WILL GET RID OF THE TRASH TUMPS AND I WILL
DONATE TO THE ALREADY EXISTING
SHELTERS

SO I WILL HELP PADUCAH BY HELPING THE
HOMELESS AND I HOPE YOU SEE THIS
AND TAKE IT TO HEART

SINCERELY

JACKSON HILL

Dear Mayor Bray

My name is Jacob Edwards My school is Clark Elementary My teacher is Mrs. Paxson I am in 5 grade.

I will help make Paducah beautiful by be kind and recycle read on to hear more!

First, when there is new people coming to our town I will treat them with respect. Also, I will help them if they need to get around our city. If also they fall I will help them pick up there stuff. I will show them around the city, so they find where to eat. I will also say which places I recommend eating at. I'll say which places are the cleanest, so they know which places to eat at.

Next, if there is trash around our town I will recycle it. I'll also clean the trash laying on the road. Or if someone didn't fully put there food in the trash then I will put it in the trash. If there's can's laying down I will recycle it. If there's food and drinks laying around I'll put it in the trash.

Sincerely, jacob

September 22, 2022

Dear Mayor Bray,

I have heard about your idea to beautify Paducah, and I have some ideas to help you. I will make my community beautiful by cleaning up trash, and renovating old buildings.

First of all, I will help clean up trash. I could organize a clean up crew. The clean up crew will include other students from Concord. Secondly, the cleaning crew could go clean up local places around Paducah every month. For example, the clean up crew could visit places around our school and pick up trash. Last, the cleaning crew could even clean other people's front and backyards. The cleaning crew could offer to clean the back and front yards of people in their neighborhood.

Also, I will help renovate old buildings. First, I could raise money for some paint, and even some new furniture. Me and some friends and family could do a bake sale to help raise the money. Secondly, to renovate buildings I could buy flowers. We could use the flowers to make the buildings look nice. Lastly, we could buy air fresheners. Some air fresheners would make it smell really good in the buildings, so people would want to go.

In conclusion, thank you for considering my ideas, and thank you for helping to make Paducah beautiful. I hope you have a great rest of your day!

Sincerely,
Jade Howard

Dear mayor bray,

I will help make Paducah beautiful by planting flowers and Being kind. read onto hear more

First, I will plant seeds roots and acorns that I found find on the ground.

Next I will, donate money to charity i won't burn trash money to people in need be kind to people is haiku with flowers and trees clean up the river pick up trash in the river and compose fruits and veggies.

Finally I will, recycle all plastic carboard and metal so that there will hopefully be less pollution in the airto help people and animals.

Sincerely, Jaeydan james Mrs.paxson class 5th grade Clark elementary school.

Dear Mayor Bray,

Jayrin Jones

Clark elementary School Teacher in Mrs. Stevens 5 grade

I will help make Paducah beautiful by picking up trash and recycle stuff lead on to heart more.

First I will be kind to other people and I will help them if they get hurt.

Next I will plant flowers and trees by my house and I think about Bird Zoo and more parks, and build a aquarium.

In conclusion that is all the other that will make Paducah beautiful.

Sincerely Jayrin Jones.

Dear Mayor Bray,

I will help make Paducah beautiful by being kind to others and cleaning up trash and litter. Read on to hear more!

First, I will be kind to others by, if they need help, I will help them. Or if they got hurt, I will find others who can help immediately. Another way I could be kind to others is with my words. I would wave and say hello to others when I go on morning bike rides, or when I work in the yard with my dad.

Next, I would clean up trash at rivers, parks, or school sports stadiums. Like when I go to my brother's home soccer games, since I get there early, I would go to the stands and clean up all the trash left from last game or practice. I also like to go to the river downtown because my dad works down at Walker Hall. So, after his shift is done, we go to the river and I always see trash, so I run down and pick some of it up.

In conclusion this is how I can help make Paducah, Kentucky beautiful.

Sincerely, J

ames Guyette

Sep 22, 2022

Dear Mayor Bray,

I've heard from my writing teacher that you are planning to beautify Paducah. I have some things I can do. I'll try to help make my community beautiful to the best of my ability.

To begin with, I'll pick up trash. At recess I'll spend Tuesday-Friday picking up litter on our playground. When I'm not at recess, if I see any trash I'll put it in a trash bag and throw it away. I'll advertise my animal protection group on YouTube and promote my website. I will occasionally host gatherings at parks, etc. Every month I'll send a newspaper through email.

Furthermore, I'll pull out any weeds if I have the chance. Since, at home by myself I get bored a lot, so I will go outside to pull them out quite often. When my mom is working outside, I'll help her pull them out since they will choke the plants and grass. Really, it's kind of.....fun?? During my gatherings, we will also pull weeds out as well.

In conclusion, these are some ways I'll help beautify Paducah. I will do all I can to beautify Paducah!

Sincerely,
Janus Cheung

Jayden self

Dear Mayor Bray,
I will help make paducah
Beautiful by planting flowers
and trees and being kind.
Read on to here more.

First, I would make paducah
better by adding recycle bins
everywhere so people would
stop throwing trash on
the ground.

Also, Another thing I would do
to make paducah pretty
I would plant trees I would
make a place called The
paducah flower garden
so people can see lots of
flowers.

Lastly, I would build a
homeless shelter to help
all the homeless people
stay off the streets.
This is all of the
stuff I would do
if I was the mayor.

September 22, 2022

Dear Mayor Bray

I heard you are planning to do a beautification project on paducah and I have some ideas to help. I believe it will make my community better by painting murals and planting trees and flowers.

First of all I will get friends and volunteers. We will go around planting trees and flowers in parks. We could do this every week and make the community look good and get rid of the carbon dioxide in the air. Also when people walk by a place where we plant these flowers it would make them want to stay because it looks so nice.

Furthermore I could go around painting murals on old buildings to make them look nicer. We could do this once a month to slowly make the community better and better. It could also help me and the people doing it get better at art. Finally

In conclusion, doing all of these things can make us have a beautiful community. Thank you for considering my ideas.

Sincerely,
Josiah Dye

Ju'Bar Wilson ~~copy~~ Mrs. Paxson 59 grade

Dear Mayor Bray, I will help make our
political beautiful by being kind to
people and recycling.

First, it can be kind to people
that are kind and mean. Say like someone is
coming out of town they would not
like to bump in to someone that is
mean they would like to bump in
to someone that will say sorry,
and nice people are cool, and they will
help people in need.

Next, a nother way is recycling. It
is good to recycle because it
is good for the world because
it can oceans, river, and lakes
being nasty, and if we recycle
we can plant more trees and flowers
and recycle at football games
in the bleachers.

As you can see that is a way
that is a way we can help

Sincerely, Ju'Bar Wilson

DEAR MAYOR BRAY

I will make PADUCAN better by
keeping it clean and planting
more trees and making it a
better place.

I will plant trees for
the look and the
oxygen and for the
cool leaves.

And I will plant the
flowers for the people to
see how nice PADUCAN
is so we will get
more visitors.

teacher MRS. STEVENS

STUDENTS NAME

Kaleah Clark
Clark elementary
Mrs. Lambert

5th

Dear Mayor Bray,

I will help make Paducah beautiful by being kind to people and picking up trash. Read on to hear more!

First, I can make Paducah beautiful by being nice to people. You don't want to be in a place where people are not nice to you. I know I would want to live in a place where

people are nice to me. You can be nice to somebody by talking to someone, helping somebody, or just playing with someone.

Also, you can make Paducah beautiful by picking up trash. There is a lot of trash around I know for a fact that there is a lot of trash Down Town, at the park, and all around the world there is trash. Also some people liter at the Public Library.

Sincerely, Kaleah Clark

My name is Kasyn. Burnett my school is Clark elementary my teacher's name is Mrs. Paxon

Dear Mayor Bray,

I will help make Paducah beautiful by recycling trash plant flowers read on to hear more.

First recycling is very important because if we didn't recycle we wouldn't be doing our part we have to do our part if we don't make Paducah beautiful it would be gross and make a lot of bacteria it would make us sick. Next we do want visitors if someone came by and saw so much trash I know I wouldn't wanna come back that's for sure. Paducah will look gross and it would stink.

finally I will plant flowers flower are really important more than you think one thing it does is honey flowers produces the materials to make honey if we did not have honey it would really suck .Also flowers smell and look nice if we want Paducah to look nice we should plant flowers a lot so Paducah smells and looks nice.

In conclusion this is how I would make Paducah look pretty by planting flowers and recycaling!

Sincerely Kasyn. burnett

September 14, 2022

Dear Mayor George Bray,

I understand your project on making Paducah a more beautiful place. Although our city is already very nice, I have a couple of ideas on making it even nicer and I will help. I will help make my community a more beautiful place by a citizen handprint wall, My Little Libraries, keep nice landscaping and clean up litter.

To start, I think a citizen handprint wall would add a very nice touch to the downtown area. When citizens of Paducah drive downtown an artist will paint their hands. On a wall of your choice, citizens will stick their painted hand on the wall. After it dries, in the middle of their handprint they will write their name and their part in our town. When the wall is full of hands you will have a beautiful, colorful mural of citizens handprints.

Another suggestion is a My Little Library. A My little library is a wooden box on a stand that can open and close. You can put books inside of it. When someone walks by with a book they can put their own book in the library and take one that they are interested in out. My Little Libraries are a fun and beautiful touch to the city.

Continuing, to help the city look nice, I will keep my yard nicely landscaped. I will mow my yard to keep the grass short, I will pull the weeds to make it look neat, and plant some plants for an extra touch. If everyone does this it will make Paducah look much nicer.

Finally, cleaning up litter would be a great way to help our city become even greater. How I will do this is first pick a group of friends to work together to pick up litter, decide where to pick it up, and actually pick up the litter.

As you can see Paducah is already an amazing place, but each student can do their part in making it an even better city. The beautification project is an excellent project for Paducah. I hope you will consider some of my ideas. Thank you for your time!

Sincerely,
Kate Thompson

Katie Oldja, Clark Elementary, Mrs. Lambert, 5th Grade

Dear Mayor Bray,

I will help make Paducah by planting flowers and trees, picking up dog waste, and being kind. Read on to hear more!

First, I will plant trees in the city and my yard. We need more trees because they provide oxygen, so do flowers. Trees also give home to animals like squirrels and birds. Trees give us fruit to eat like bananas, apples, oranges, and many more! Flowers give us something pretty to look at. If it weren't for flowers, or bees, we would never have honey!

Next, I will pick up my dog's waste. Sometimes dog waste helps, but it is better to pick it up. Some people can't afford bags or an item to pick up waste, but they need to get some because the dog waste stinks, and sometimes dogs do their business in a neighbor's yard that they worked so hard on to keep green.

Finally, I will be kind to people in my neighborhood. It's nice to look good on the outside, but it is important to have beauty on the inside. If someone goes to a friendly town, most likely they will want to stay because the people there are friendly, nice, warm and welcoming. I will be friendly to people, even if they do not like me.

In conclusion, this is how I will help make Paducah beautiful.

Keaton Spears, Clark Elementary, Mrs. Stevens, 5th grade

Dear Mayor Bray ,

I will help make Paducah beautiful by planting flowers, and being kind to people. Read on to her more!

First I will make Paducah beautiful by planting tulips, and roses, and sunflowers, and I will plant apple trees and I will plant daisies.

Next I will be kind to people because e that is what people want people to do. I will also be kind by helping old people across the street and I will also be kind by maybe help people plant flowers or help people mow their lawns or help people walk their dog.

9/19/22

Dear Mayor Bray,

I understand that you would like to work on making paducah a more beautiful community. Although the city is very nice already. I have some suggestions for making it much nicer around. I will help make my community better by reporting sightings of underage drinking and smoking and start a gofundme to build homeless shelters.

First of all I can report underage vaping and drinking. This would be great because we won't have to see sightings of thirteen year olds vaping. Also if everyone did this we could stop it. This effect would be big because if they always were caught they would not be able to do it. Finally we do this always. Then we wouldn't see this disgusting sight. As you can see, if we did this, the community would be better.

First things first we should add homeless shelters. If we add shelters this would make us better because homeless people can stay in a home. Also we do this in a rural area. So we won't have to see poverty but know their safety. Finally if we always do this they can be safe. If they have places to sleep then they don't need to worry of death by what's outside. As you can see adding shelters will make a better community.

In conclusion if we all do these ideas paducah can be a better place and community.

Sincerely, Kellan cooper

Lamari McClure Clark Elementary Mrs.Lambert 5th

Dear Mayor Bray,

I will help make Paducah beautiful by picking up trash and donate money to people in need. Read on to hear more.

First, I will pick up trash because it is helpful to the environment and to keep our area clean. I want to keep our area clean because I hate to see trash on the ground and nobody is picking it up. If you see somebody throw some trash on the ground you politely ask them to pick it up and throw it away in their house. That is one reason why I want to make Paducah beautiful.

Next, I will donate money to the people in need if they need help. I want to donate money to the people in need because I want to help people out instead of leaving them there with nothing to eat or drink. I see people walk by the homeless sometimes and I just feel really bad because nobody gave them any money.

In conclusion, this is why I want to make Paducah beautiful.

Sincerely Lamari

September 14, 2022

Dear Mayor Bray,

I understand that you would like to make it a priority to make Paducah a more beautiful community. Although our city is very nice, I have a few ideas to make it better, and I can help. I will help make my community better by cleaning up litter and rebuilding baseball fields with help.

First of all, I will pick up trash around Paducah. I will need volunteers and friends to help pick up trash once a month. It will be a trash cleanup for all over Paducah. We will need a lot of trash bags for all the litter so we can get the job done.

Secondly, I will help to renew and restore baseball fields all over Paducah. I will get many people to help with the job. We will work on the fields once a month. We will also need to have new dirt, bases, grass, and fencing to get the fields in top condition.

As you can see, my ideas will help make Paducah more beautiful than it is now. I know that my ideas will definitely have a positive impact on our city .

Sincerely,
Landyn McKinnon

Dear Mayor Bray,

I will help make Paducah beautiful by planting flowers and being kind. Read on to hear more!

First I will plant flowers by the school if it need it and I will have to work with the flowers also feed them. I will have to dig a hole in the grand to put the flower pot and the grand. Next I will have to pick up the trash that is by the flowers that I I'm planting because if I don't it will not help the flowers grow.

Next I will be kind by if I see someone that look sad I will be like if you want to come to eat with me you can I if they said that they don't want to I I'm not going to make them to go I was trying to be kind to them. Also if someone need help with stuff I will help them with what you need help with.

Last but not least that why I think I will help Paducah because I love flowers and I like being nice to people.

Clark Elementary school

Laverda Rutledge

Miss Mohs

5 Grad

Dear Mayor Bray,

I will help make Paducah beautiful by planting trees, being kind to people, and help build attractions. Read on to hear more!

First, I believe that we should have more trees and flowers. Imagine being a tourist a coming here with all the flowers and trees. It would make the experience feel and look much better. I personally love flowers, and a lot of people also like them. I think that are city could always use a little bit of life to brighten itself up. I have a flower garden and it improves the feeling in my house welcoming.

In addition to that, the best thing to help our city on the inside is to be nice to people. I have had many bad mornings but when some says something nice to me even if it's a short "Good Morning" or, "I like your shoes" it changes the whole mood of the day. I think this could make the visitors feel good, and even when they ask for directions you could have a nice tone. This is the best way to improve our city in general is to be nice.

Finally, I think more attractions would be helpful to make our city stand out more. Many people love attractions and would love to tour around. There are so many things you could build as well. Here are some ideas more nature reserves, amusement parks, zoos, aquariums, water parks, and more. Even the citizens of Paducah could benefit, because then they wouldn't have to drive far away to attractions that would help a different city.

In conclusion, I believe my reasonings could greatly improve our city.

Sincerely,

Leonard A. Page from Clark Elementary School

Mrs. Mohs 5th grade classroom

Lilith A. Hebert, Clark Elementary School, Mrs. Mohr
5 Grade

Dear Mayor Bray,

I will help make Paducah beautiful by being kind and helping others. Please read on to hear more!

First, I know that being kind to others leads to not just beauty in our town but our hearts. So if we are kind to others we are making this town even more beautiful! I do this everyday at school and in public places, I'm kind to the new people and I'm great at talking to adults.

Next, I will help others. Helping others will lead to a better community. (Paducah is a good place but this will make it more amazing) I think that being a good community leads us to an amazing town.

As you can see, helping and being kind will make an amazing town!

Sincerely, Lilith A. Hebert

By Logan. Dickerson

Clark elementary

Dear Mayor Bray, I will help make Paducah beautiful by planting flowers and being kind. Read on to learn more!

First, I will plant flowers in my yard I will take care of them I will pull all the weeds out of the flowers I will water the flowers all the time and plant new flowers when the old ones die.

Next, I will be kind to people in need of food, water, money. I will help pick up trash at football games and on the road and in the river and lakes and at school.

Sincerely, Logan Wilson

September 22, 2022

Dear Mayor Bray,

I heard you are planning a project to beautify Paducah. I have some ideas to help. I will help make my community beautiful by cleaning up trash and planting more greenery.

First of all, I will help plant more greenery because plants are pretty and if we have more of them it will look better. We can gather up a team or a group to help plant. If we gather up a team we can plant faster. We can also have a fundraiser to earn money. A fundraiser would help because plants aren't that cheap and the fundraiser can help pay for them. Citizens could all gather up and plant annually. A gathering would help because people might want to talk while planting and gatherings can be really fun so a lot of people might show up. This is one way we can help beautify Paducah.

Also, I can help by cleaning up trash because if we clean up trash it will look prettier. I can gather up a crew to help. A crew would help because the more people we have the more trash we collect. We can meet downtown and start cleaning there. Downtown is a better place to start because downtown has a lot more trash and people. We can have a meetup three times a year. A couple meetups a year means we can get more trash which is better for the environment rather than only having one every year. This is another way I can help beautify Paducah.

In conclusion, cleaning up trash and planting more greenery will help make Paducah more beautiful. Thank you for considering my ideas.

Sincerely,
Lucas Ballert
